SUBJECT INDEX TO VOLUME 113

ABDOMEN, surgery, Analysis of factors which influence mortality following extensive abdominal operations upon geriatric patients, 283; surgery, Total abdominal hysterectomy by Mayo Clinic (Masson-Counseller) technique, 379

Abnormalities and deformities, congenital, Arteriographic findings in, of mesentery and intestines, 346; congenital, Evaluation of syndactylia repair, 471; congenital, Omphalocele, 501

Abscess, Anorectal and anovulval fistulous, 519; Primary resection and anastomosis in treatment of perforated lesions of colon, with, or diffusing peritonitis, 646

Accidents, Hazard of iatrogenic pneumothorax in certain diagnostic and therapeutic procedures, 24; automobile, Intracranial pressure and acceleration accompanying head impacts in human cadavers, 185

Acetabulum, Fractures of floor of, and traumatic central dislocation of hip, 479

Acidosis, Effect of portacaval shunting on hyperchloremic, in animals, 153; Urinary excretion of aldosterone during hyperchloremic, produced by diversion of urine into colon, 509

Adhesions, Experimental study of fibrinolysis in prophylaxis of peritoneal, 547

Adrenals, physiology, Studies of calcium and magnesium metabolism during surgical convalescence, 213; physiology, Simultaneous evaluation of thyroid hormone transport mechanisms and adrenocortical function during operation, 449

Alcoholism, Clinical study of alcoholic pancreatitis, 167

Aldosterone, See Steroids

American College of Surgeons, Clinical Congress, 1961, Chicago, Preliminary plans for 47th, Conrad Hilton Hotel, 2 through 6 October, 127; 257; 391

American Joint Committee, End results in 600 laryngeal cancers using, proposed method of stage classification and end results reporting, 435

Anatomy, Arterial patterns in hand based upon study of 650 specimens, 409; Experimental evidence of direct communications between lymph nodes and veins, 537

Androgens, Rebound regression in advanced mammary carcinoma, 635

Aneurysm, aortic, Results of resection of abdominal, 17; cerebral, Treatment of, by ligation of common carotid artery, 54

Angiography, Experimental appraisal of new angiographic contrast medium, 234

Antibiotics, Roles of choledochostomy and, in gallbladder surgery, 277

Anuria, See Urine, suppression

Anus, fissure, Review of 50 patients with, in ano, 445; abscess, Anorectal and anovulval fistulous, 519

Aorta, surgery, Results of resection of abdominal aortic aneurysm, 17; Practical method of left retrograde cardioangiography, 106; surgery, Physical properties of arteries after endarterectomy, 227

Aortic valve, surgery, Distal relocation of origin of left coronary artery by subclavian-left coronary anastomosis, 598

Arms, Wringer injuries of upper extremity, 677

Arteries, coronary, See Coronary vessels

Arteries, occlusion, Preservation of cerebral cortical activity by breathing oxygen at 2 atmospheres of pressure during cerebral ischemia, 13; carotid, Treatment of cerebral aneurysms by ligation of common, 54; surgery, Technique of applying autogenous vein patch to arteriotomy, 114; hepatic, Changes in, blood vessels in cirrhosis of liver, 133; iliac, surgery, Physical properties of, after endarterectomy, 227; anomalies, Arteriographic findings in congenital abnormalities of mesentery and intestines, 346; anatomy, Arterial patterns in hand based upon study of 650 specimens, 409; hepatic, Effect of pitressin on cardiac output and coronary, and intestinal blood flow, 484; subclavian, Distal relocation of origin of left coronary, by, -left coronary anastomosis, 598; carotid, Internal, angioplasty, 783

Atlas and axis, dislocations, Chronic atlanto-axial, with late neurologic manifestations, 757

BANK BLOOD, Study of, toxicity, 40

Bile ducts, obstruction, Acute obstructive suppurative cholangitis, 265; calculus, Roles of choledochostomy and antibiotics in gallbladder surgery, 277; Surgical treatment of cystic duct remnants, 711

Biliary tract, disease, Acute obstructive suppurative cholangitis, 265; surgery, Roles of choledochostomy and antibiotics in gallbladder, 277; Technique of, endoscopy, 514; surgery, Surgical treatment of cystic duct remnants, 711

Bladder, surgery, Artificial urinary sphincter, 62; surgery, Reciprocal effect of total, replacement on renal function, 458; Surgical disorders of, and umbilicus of urachal origin, 605

Blood, cells, See Leukocytes

Blood, circulation, Preservation of cerebral cortical activity by breathing oxygen at 2 atmospheres of pressure during cerebral ischemia, 13; preservation, Study of bank, toxicity, 40; circulation, Role of reflex spasm in pathogenesis of venous ischemia, 47; circulation, Stasis ulcer, ed. 99; circulation, extracorporeal, Physiologic changes accompanying profound hypothermia, 138; chloride, Effect of portacaval shunting on hyperchloremic acidosis in animals, 153; circulation, Effect of nitrogen mustard on circulating cancer cells and pulmonary metastases from experimental cecal carcinoma, 160; Coagulation, of, in isolated venous segments, 293; coagulation, Propagation of induced venous thrombi, 324; Plasma protein synthesis in normal dog and after total hepatectomy, 360; circulation, extracorporeal, Disk thermal exchanger, 375; Simultaneous evaluation of thyroid hormone transport mechanisms and adrenocortical function during operation, 449; circulation, Effect of pitressin on cardiac output and coronary, hepatic, and intestinal, flow, 484; circulation, Further studies on renal decapsulation, 567; circulation, extracorporeal, Distal relocation of origin of left coronary artery by subclavian-left coronary anastomosis, 598; circulation, volume, Measurement of, flow in human lower extremity by indicator-dilution method, 641; circulation, extracorporeal, Simplified median sternotomy incision, 655

Blood pressure, high, Nebulous hypertension, ed. 101; Effect of pitressin on cardiac output and coronary, hepatic, and intestinal blood flow, 484; Further studies on renal decapsulation, 567; experimental, Hemodynamic and humoral changes in dogs during acute phase of transfusion reactions, 705; Mecha-

nisms of shock as reflected in studies of lymph of abdominal organs, 743
Blood transfusion, preserved blood in, Study of bank, toxicity, 40; Hemodynamic and humoral changes in dogs during acute phase of, reactions, 705
Blood vessels, opacification, Experimental appraisal of new angiographic contrast medium, 234; grafts, Internal carotid artery angioplasty, 783
Bone, growth, Experimental study of influence of implanted polyurethane sponges upon subsequent, formation, 143; growth, Epiphysial stapling, 315; marrow, Treatment of irradiation sickness in dog with autologous and homologous, 591
Book Shelf, Surgical pathology in Renaissance, 117; On road in Normandy—17 July 1944, 243; Stephen Grover Cleveland, 524; Medicine in numismatics, 657
Brain, blood supply, Preservation of cerebral cortical activity by breathing oxygen at 2 atmospheres of pressure during cerebral ischemia, 13; surgery, Treatment of cerebral aneurysms by ligation of common carotid artery, 54
Breast, cancer, Evaluation of criteria of operability of carcinoma of, 562; cancer, Modified mastectomy for older, poor risk patients, 631; cancer, Rebound regression in advanced mammary carcinoma, 635; cancer, Inflammatory carcinoma of, 729

Calcium, Studies of, and magnesium metabolism during surgical convalescence, 213; Effect of intravenous, infusions upon renal response following operation, 274
Cancer, research, Perfusion of compounds potentiating radiation for therapy of, 73; dissemination, Effect of nitrogen mustard on circulating, cells and pulmonary metastases from experimental cecal carcinoma, 160; uterus cervix, Significance of urinary tract complications in carcinoma of, 219; uterus cervix, Superficial carcinoma of, in pregnancy, 339; obstructing, Clinicopathologic study of, carcinoma of right portion of colon, 353; thyroid, of, 425; thyroid, Effectiveness of treatment of well differentiated, carcinoma, 427; classification, larynx, End results in 600 laryngeal, using American Joint Committee's proposed method of stage, and end results reporting, 435; uterus cervix, Surgical management of acute obstructive anuria due to stage IV carcinoma of, 521; chemotherapy, Effect of tissue temperature on binding of alkylating agents in isolation perfusion treatment of, 555; breast, Evaluation of criteria of operability of carcinoma of, 562; uterus cervix, Postradiation ureteral stricture, 615; breast, Modified mastectomy for older, poor risk patients, 631; breast, Rebound regression in advanced mammary carcinoma, 635; uterus cervix, Co-operation, not competition, in management of, ed. 651; diagnosis, Early, of gastric, 665; curability, Significance of duration of symptoms and size of lesion in prognosis of gastric carcinoma, 673; breast, Inflammatory carcinoma of, 729; cells, statistics, Histology of carcinomas of uterine cervix and survival rates in pregnant and nonpregnant patients, 763
Cardioangiography, Practical method of left retrograde, 106
Catheter, Use of plastic tubing for thoracentesis and paracentesis, 779
Cecum, Effect of nitrogen mustard on circulating cancer cells and pulmonary metastases from experimental cecal carcinoma, 160
Cells, Chromosomes and surgeons, ed. 777
Chemotherapy, Perfusion of compounds potentiating radiation for therapy of cancer, 73; Effect of tissue temperature on binding of alkylating agents in isolation perfusion treatment of cancer, 555
Chordoma, See Tumors, chordoma
Chromosomes, and surgeons, ed. 777
Classification, End results in 600 laryngeal cancers using American Joint Committee's proposed method of stage, and end results reporting, 435
Cleveland, Stephen Grover, 524
Coagulation, of blood within isolated venous segments, 293
Coccyx, Sacrococcygeal chordomas, 551
Collagen, Effects of acid extract of, cold neutral solutions of, and reconstituted, fibrils on wound healing in normal and protein-depleted rats, 329; Acceleration of skin defect closure, 681
Colon, cancer, Clinicopathologic study of obstructing carcinoma of right portion of, 353; Urinary excretion of aldosterone during hyperchloremic acidosis produced by diversion of urine into, 509; cancer, surgery, Primary resection and anastomosis in treatment of perforated lesions of, with abscess or diffusing peritonitis, 646; inflammation, Investigation of volume of output and chemical content of ileal discharges following total colectomy and ileostomy, 733
Contrast media, ditriokon, Experimental appraisal of new angiographic, 234
Coronary vessels, Effect of pitressin on cardiac output and, hepatic, and intestinal blood flow, 484; Distal relocation of origin of left, artery by subclavian-left, anastomosis, 598
Cortisone, Acceleration of skin defect closure, 681
Cranium, pressure in, Intracranial pressure and acceleration accompanying head impacts in human cadavers, 185; fracture, On road in Normandy—17 July 1944, 243
Cyst, Air, of lung, 720

Diagnosis, Hazard of iatrogenic pneumothorax in certain diagnostic and therapeutic procedures, 24; Pneumoperitoneum in infancy, 623; Early, of gastric cancer, 665
Diagnosis, differential, Value of electrocardiogram in immediate postoperative period, 33; Acute obstructive suppurative cholangitis, 265; cancer, Superficial carcinoma of uterine cervix in pregnancy, 339; Technique of biliary tract endoscopy, 514; Immediate and remote sequelae in traumatic diaphragmatic hernia, 573; Inflammatory carcinoma of breast, 729; Chronic atlanto-axial dislocations with late neurologic manifestations, 757
Diaphragm, hernia, See Hernia, diaphragmatic
Dumping syndrome, Body fluid disturbance resulting from pyloric dysfunction, 1, cor. 534
Duodenum, surgery, Investigations regarding management of duodenal stump, 197
Dysgerminoma, See Tumor, dysgerminoma

Editorial, Stasis ulcer, 99; Nebulous hypertension, 101; Plea for accurate terminology in gastric surgery, 230; Who should do surgery of hand, 233; Ultrascience of vascular graft, 373; Reflux esophagitis and His's angle, 374; Surgery and pursuit of happiness, 512; Co-operation, not competition, in management of cancer of cervix, 651; Chromosomes and surgeons, 777
Electrocardiogram, Value of, in immediate postoperative period, 33
Electrolytes, balance, Body fluid disturbance resulting from pyloric dysfunction, 1, cor. 534; balance, Investigation of volume of output and chemical content of ileal discharges following total colectomy and ileostomy, 733
Embryology, Omphalocele, 501; Surgical disorders of bladder and umbilicus which are of urachal origin, 605

Endoscopy, Technique of biliary tract, 514
Ensymes, Enzymatic histochemical patterns in surgically resected thyroid glands, 542
Epiphyses, Epiphysial stapling, 315
Esophagus, inflammation, Reflux esophagitis and His's angle, ed. 374
Estrogens, Rebound regression in advanced mammary carcinoma, 635
Extremities, Experimental studies and clinical experience with isolated limb perfusion of fungicidal drugs, 306; blood supply, Measurement of, flow in human lower, by indicator-dilution method, 641

FABRICIUS ab Aquapendente, Surgical pathology in renaissance, 117
Fabricius von Hilden, Surgical pathology in Renaissance, 117
Fibrinolysis, Experimental study of, in prophylaxis of peritoneal adhesions, 547
Fingers, abnormalities, Evaluation of syndactylia repair, 471
Fissure, anal, See Anus, fissure
Fistula, colonic, duodenal, intestinal, Study of causes and treatment of external postoperative, 490
Fluids, balance, Body, disturbance resulting from pyloric dysfunction, 1, cor. 534; balance, Investigation of volume of output and chemical content of ileal discharges following total colectomy and ileostomy, 733
Food, Intestinal obstruction due to, 149
Fractures, of floor of acetabulum and traumatic central dislocation of hip, 479
Fungicidal drugs, amphotericin B, Experimental studies and clinical experience with isolated limb perfusion of, 306

GALLBLADDER, surgery, Roles of choledochostomy and antibiotics in, 277; excision, Surgical treatment of cystic duct remnants, 711
Gastrointestinal tract, Low pressure, suction apparatus for neonatal surgery, 653
Geriatrics, Operative experience with patients over 80 years of age, 205; Analysis of factors which influence mortality following extensive abdominal operations upon, patients, 283; Modified mastectomy for older, poor risk patients, 631
Germicides, Evaluation of iodophor compounds as surgical, 699
Grafts, bone, Experimental study of influence of implanted polyurethane sponges upon subsequent, formation, 143; vascular, Ultrascience of, ed. 373; bone, Chronic atlanto-axial dislocations with late neurologic manifestations, 757; arterial, Internal carotid artery angioplasty, 783

HAND, surgery, Who should do, of, ed. 233; Arterial patterns in, based upon study of 650 specimens, 409
Head, Intracranial pressure and acceleration accompanying, impacts in human cadavers, 185
Heart, electrocardiography, Value of electrocardiogram in immediate postoperative period, 33; muscle, Study of bank blood toxicity, 40; Practical method of left retrograde cardioangiography, 106; output, Effect of pitressin on cardiac, and coronary, hepatic, and intestinal blood flow, 484; surgery, Distal relocation of origin of left coronary artery by subclavian-left coronary anastomosis, 598; surgery, Simplified median sternotomy incision, 655
Heat, Disk thermal exchanger, 375
Hemodynamics, Effect of pitressin on cardiac output and coronary, hepatic, and intestinal blood flow, 484
Hemorrhage, Mechanisms of shock as reflected in studies of lymph of abdominal organs, 743
Heparin, Propagation of induced venous thrombi, 324
Hernia, umbilical, Omphalocele, 501; diaphragmatic, Immediate and remote sequelae in traumatic, 573
Hip, dislocation, Fractures of floor of acetabulum and traumatic central, of, 479
His's angle, Reflux esophagitis and, 374
Histochemistry, Enzymatic histochemical patterns in surgically resected thyroid glands, 542
Hormones, adrenocortical, thyroid, Simultaneous evaluation of, transport mechanisms and, function during operation, 449; effects, Rebound regression in advanced mammary carcinoma, 635
Hypertension, See Blood pressure, high
Hypothermia, Physiologic changes accompanying profound, 138

ILEUM, New urine collection device for children with ileac segments, 517; Total body potassium in patients after ureteroileostomy, 585; surgery, Investigation of volume of output and chemical content of ileal discharges subsequent to total colectomy and ileostomy, 733
Infants, Pneumoperitoneum in infancy, 623; surgery, Low pressure gastrointestinal suction apparatus for neonatal, 653
Infection, surgical, Critical study of 100 consecutive wound, 91; Acute obstructive suppurative cholangitis, 265; fungus, Experimental studies and clinical experience with isolated limb perfusion of fungicidal drugs, 306; surgical, Experimental evaluation of operative wound irrigation, 465
Instruments and apparatus, Stainless steel strut for correction of pectus excavatum, 111; Improved trocar for aseptic decompression of obstructed small bowel, 238; isolated perfusion, Experimental studies and clinical experience with, limb, of fungicidal drugs, 306; Disk thermal exchanger, 375; intra-anal diaphragm, Review of 50 patients with fissure in ano, 445; New urine collection device for children with ileac segments, 517; perfusion circuit, Effect of tissue temperature on binding of alkylating agents in isolation, treatment of cancer, 555; extracorporeal perfusion system, Distal relocation of origin of left coronary artery by subclavian-left coronary anastomosis, 598; Low pressure gastrointestinal suction apparatus for neonatal surgery, 653; sternal awl and Gigli saw, Simplified median sternotomy incision, 655; Use of plastic tubing for thoracentesis and paracentesis, 779
Intestines, obstruction, due to food, 149; obstruction, Improved trocar for aseptic decompression of obstructed small bowel, 238; anomalies, Arteriographic findings in congenital abnormalities of mesentery and, 346; fistula, Study of causes and treatment of external postoperative intestinal, 490; diverticulum, Primary resection and anastomosis in treatment of perforated lesions of colon, with abscess or diffusing peritonitis, 646; blood supply, Mechanisms of shock as reflected in studies of lymph of abdominal organs, 743
Iodine, radioactive iodinated human serum albumin, Measurement of blood flow in human lower extremity by indicator-dilution method, 641; Evaluation of iodophor compounds as surgical germicides, 699
Iodophor compounds, Evaluation of, as surgical germicides, 699
Irrigation, Experimental evaluation of operative wound, 465
Ischemia, Preservation of cerebral cortical activity by breathing oxygen at 2 atmospheres of pressure during cerebral, 13; Role of reflex spasm in pathogenesis of venous, 47

JOINT, atlanto-axial, Chronic, dislocations with late neurologic manifestations, 757

KIDNEYS, physiology, Effect of intravenous calcium infusions upon renal response following operation, 274; physiology, Reciprocal effect of total bladder replacement on renal function, 458; blood supply, Further studies on renal decapsulation, 567; hydronephrosis, Postradiation ureteral stricture, 615
Knee, deformities, Epiphysial stapling, 315

LABOR, induction, Hazards and contraindications to, of, 497
Larynx, cancer, End results in 600 laryngeal, using American Joint Committee's proposed method of stage classification and end results reporting, 435
Leg, length, Epiphysial stapling, 315
Leukocytes, Treatment of irradiation sickness in dog with autologous and homologous bone marrow, 591
Liver, wounds and injuries, Emergency hepatic lobectomy in massive, of, 102; blood supply, Changes in hepatic, vessels in cirrhosis of, 133; physiology, Plasma protein synthesis in normal dog and after total hepatectomy, 360; blood supply, Mechanisms of shock as reflected in studies of lymph of abdominal organs, 743
Lungs, Hazard of iatrogenic pneumothorax in certain diagnostic and therapeutic procedures, 24; cancer, Effect of nitrogen mustard on circulating, cells and pulmonary metastases from experimental cecal carcinoma, 160; cyst, Air, of, 720
Lymph, Mechanisms of shock as reflected in studies of, of abdominal organs, 743
Lymph glands, excision, Unusual complication of radical hysterectomy and pelvic lymphadenectomy, 455
Lymph nodes, Experimental evidence of direct communications between, and veins, 537

MAGNESIUM, Studies of calcium and, metabolism during surgical convalescence, 213
Medicine, history, Surgical pathology in Renaissance, 117; history, in numismatics, 657
Mesentery, Arteriographic findings in congenital abnormalities of, and intestines, 346
Metabolism, Studies of calcium and magnesium, during surgical convalescence, 213; Effect of intravenous calcium infusions upon renal response following operation, 274; Enzymatic histochemical patterns in surgically resected thyroid glands, 542
Mitral valve, Practical method of left retrograde cardioangiography, 106

NERVES, roots, Chronic atlanto-axial dislocations with late neurologic manifestations, 757
Nitrogen mustard, Effect of, on circulating cancer cells and pulmonary metastases from experimental cecal carcinoma, 160
Numismatics, Medicine in, 657

OMPHALOCELE, See Hernia, umbilical
Ovary, tumors, Study of ovarian dysgerminoma with emphasis on role of radiation therapy, 692
Oxygen, Preservation of cerebral cortical activity by breathing, at 2 atmospheres of pressure during cerebral ischemia, 13
Oxygenator, See Instruments and apparatus
Oxytocin, Hazards and contraindications to induction of labor, 497

PANCREAS, disease, Clinical study of alcoholic pancreatitis, 167
Paracentesis, Use of plastic tubing for thoracentesis and, 779
Parathyroid glands, Studies of calcium and magnesium metabolism during course of surgical convalescence, 213
Pathology, Surgical, in Renaissance, 117; Clinicopathologic study of obstructing carcinomas of right portion of colon, 353
Pectus excavatum, Stainless steel strut for correction of, 111
Peptic ulcer, surgery, Twenty-five years of experience with elective gastric resection for gastric, 191
Perfusion, of compounds potentiating radiation for therapy of cancer, 73; isolation, Experimental studies and clinical experience with isolated limb, of fungicidal drugs, 306; isolation, Effect of tissue temperature on binding of alkylating agents in, treatment of cancer, 555
Peritoneum, Experimental study of fibrinolysis in prophylaxis of peritoneal adhesions, 547; Pneumoperitoneum in infancy, 623
Peritonitis, Primary resection and anastomosis in treatment of perforated lesions of colon, with abscess or diffusing, 646
Physiology, Physiologic changes accompanying profound hypothermia, 138
Pitressin, Effect of, on cardiac output and coronary, hepatic, and intestinal blood flow, 484
Pleura, wounds and injuries, Hazard of iatrogenic pneumothorax in certain diagnostic and therapeutic procedures, 24
Pneumoperitoneum, postoperative, Unusual complication of radical hysterectomy and pelvic lymphadenectomy, 455; in infancy, 623
Pneumothorax, iatrogenic, Hazard of, in certain diagnostic and therapeutic procedures, 24
Polyurethane polymer, Experimental study of influence of implanted, sponges upon subsequent bone formation, 143
Portal vein, Nebulous hypertension, ed. 101; Changes in hepatic blood vessels in cirrhosis of liver, 133; Effect of portacaval shunting on hyperchloremic acidosis in animals, 153; Effect of pitressin on cardiac output and coronary, hepatic, and intestinal blood flow, 484
Potassium, Total body, in patients after ureteroileostomy, 585
Pregnancy, Superficial carcinoma of uterine cervix in, 339; termination, Hazards and contraindications to induction of labor, 497; cancer, Histology of carcinoma of uterine cervix and survival rates in pregnant and nonpregnant patients, 763
Proteins, Effects of acid extract of collagen, cold neutral solutions of collagen, and reconstituted collagen fibrils on wound healing in normal and, depleted rats, 329; Plasma, synthesis in normal dog and after total hepatectomy, 360
Pylorus, stenosis, Body fluid disturbance resulting from pyloric dysfunction, 1, cor. 534

RADIATION, Perfusion of compounds potentiating, for therapy of cancer, 73; Treatment of irradiation sickness in dog with autologous and homologous bone marrow, 591; Postradiation ureteral stricture, 615
Rectum, abscess, Anorectal and anovulval fistulous, 519; Investigation of volume of output and chemical content of ileal discharges following total colectomy and ileostomy, 733
Roentgen rays, diagnosis, Practical method of left retrograde cardioangiography, 106; diagnosis, Experimental appraisal of new angiographic contrast medium, 234; diagnosis, Arteriographic findings in congenital abnormalities of mesentery and intestines, 346; therapy, Study of ovarian dysgerminoma with emphasis on role of radiation, 692
